

A Complete Cloud Billing, Accounting, and Practice Management Solution

Get access to the powerful tools and features that have transformed the way tens of thousands of legal professionals work. All without the hassle of additional hardware. Enjoy the same easy-to-use interface and data privacy that Tabs3 clients have relied on with the on-premises version of Tabs3 Software.

- ✓ Data Privacy
- ✓ Powerful and Flexible
- ✓ Robust, US-based Support
- ✓ Access from Anywhere

Tabs3 Cloud is the perfect solution for your firm's mobility and data privacy needs.

Tabs3 Software and your data are accessible from any internet connection, at any time, using any device. Work from your office, at home, or on the go, all within a secure environment. Create invoices, collect payments, generate reports, check conflicts of interest, and manage documents, calendars, and case information. The streamlined functionality law firms love is more versatile than ever.

Tabs3 Billing, Financials, and PracticeMaster are all available in the cloud or on-premises.

Tabs3 Billing is the standard for legal time and billing software. Easy-to-use features, robust reporting, and customizable email statements make it perfect for timely client billing and growing your law practice.

Tabs3 Financials is made for the accounting needs of law firms. Trust Accounting, Accounts Payable, and General Ledger all integrate seamlessly with Tabs3 Billing to reduce manual work.

PracticeMaster helps firms stay organized with tools and templates to customize for your area of practice. Add on Tabs3 CRM to optimize your firm's growth and gain new clients while streamlining client intake.
